

Asia Dhaher

UI/UX designer / Front-End / Biology

Masif-Erbil

+964 (783) 114 3663

asia.zahir2000@gmail.com

Profile

I am a UX/UI designer and front-end developer with a degree in biology and four years of experience in modern biology techniques. I am creative and innovative, and I always use design to solve user problems. I have a lot of experience in user workflows and UI/UX design. I use Figma to create wireframes, mockups, and prototypes. I love turning my designs into interactive web pages with Next.js and other developer tools.
